SUBJECT: BLUE LANTERN LEVEL 3: PRE-LICENSE END-USE CHECK
ON APPLICATION 050126003

REF: 2006 BLUE LANTERN GUIDEBOOK

¶1. This is an Action Request. See paragraphs 2-4.

¶2. The Department's Office of Defense Trade Controls Compliance (PM/DTCC) requests post's assistance in conducting a pre-license check on application 050123038 for the export of armor plating to Mexico. Post is requested to complete this Blue Lantern check within 30 days. Lack of response to a Blue Lantern check will affect pending and future licenses involving parties to this license.

¶3. Reason for request: Unfamiliar foreign consignee Blindajes Mexicanos S.A. de C.V. The company has not appeared on any previous license applications, nor have the bona fides of the company been verified by a Blue Lantern check.

¶4. ACTION: Department requests that Embassy make appropriate inquiries to verify the bona fides of unfamiliar foreign consignee Blindajes Mexicanos S.A. de C.V. and confirm the legitimacy of this proposed transaction. PM/DTCC also requests that post conducts a site visit to the company in order to provide Department with an assessment of its business operations and on-site security. Finally, post is asked to assess whether the company appears to be a reliable recipient of USML items. If a site visit is not possible, please inform the PM/DTCC officer.

The following questions are provided as suggested guidance:

--Does the company have supporting documentation for this proposed transaction?

--Does the company have secure facilities and proper accounting and security procedures for handling sensitive USML items?

--What is the exact end-use for this USML item?

--When was the company established and who are its principals?

--What is the nature of its business -- what type of items does it handle, does it serve as a broker?

--What type of organizations are among its typical customers and where are the customers located?

--Does the company understand the restrictions on United States Munitions List (USML) items, especially the prohibition against unauthorized re-transfers and re-exports?

END ACTION
